	I01-09-002	Order instituting investigation on the Commission's own motion to assess and revise the New Regulatory Framework for Pacific Bell and Verizon California Incorporated.

**Summary:** On December 2, 2004, Tim McCallion, President – Pacific Region, Verizon California Inc. (Verizon), met with Dr. Tim Sullivan, advisor to Cmmr. Kennedy, in San Francisco. Also present was Michelle Robinson, Vice President-Regulatory of Verizon. McCallion emphasized that the framework that results from this proceeding will be in place for years to come, and therefore, it must be futuristic and offer the flexibility needed to keep up with evolving consumer demand. McCallion also commented that the Commission has the right to modify past decisions and orders based on changed circumstance, so long as it give parties notice and an opportunity to be heard.

12/8/04	A03-08-004	Pacific Gas and Electric Company, for adoption of its 2004 Energy Resource Recovery Account (ERRA) forecast revenue requirement, for review of contract administration, least cost dispatch and procurement activities during the record period January 1, 2003 through May 31, 2003, and for approval of its 2004 Ongoing Competition Transition Charges (CTC) revenue requirement and proposed rate design.

**Summary:** On December 6, 2004, Dan L. Carroll, representing the Merced Irrigation District, met with Julie Fitch, advisor to Pres. Peevey, David Gamson, advisor to Cmmr. Brown, and Manuel Ramirez, advisor to Cmmr. Wood, in three separate meetings in San Francisco. Also present were Christopher Mayer and Joy Warren, representing Modesto Irrigation District. Carroll stated that the proposed decision (PD) of ALJ Wong would result in Municipal Departing Load (MDL) customers paying CTC rates four times those of bundled and direct access customers. Carroll noted that although that was the result in the Customer Generation Departing Load case, that case resulted from a settlement. Carroll noted that even though the Commission did not adopt the settlement, it relied upon it. Carroll also stated that D03-04-030 made it clear that it was not addressing MDL CTC issues. Carroll added that D03-07-028, addressing

certain MDL cost responsibility surcharge issues, did not adopt a CTC calculation method. Carroll explained that the PD inappropriately relies on intervening cases and advice letters. Carroll further discussed uneconomic costs of certain Qualifying Facility (QF) contracts which the PD allows to be collected through CTC. Carroll argued that insofar as the term of a contract is extended beyond its original term, CTC may not be recovered during any extension period. Carroll explained that the fact that the Commission ordered these contracts extended does not matter.

12/9/04                      A03-08-004                      Pacific Gas and Electric Company, for adoption of its 2004 Energy Resource Recovery Account (ERRA) forecast revenue requirement, for review of contract administration, least cost dispatch and procurement activities during the record period January 1, 2003 through May 31, 2003, and for approval of its 2004 Ongoing Competition Transition Charges (CTC) revenue requirement and proposed rate design.

**Summary:** On December 6, 2004, Christopher Mayer, Assistant General Manager Planning and Marketing, Modesto Irrigation District (Modesto), met with Julie Fitch, advisor to Pres. Peevey, David Gamson, advisor to Cmmr. Brown, and Manuel Ramirez, advisor to Cmmr. Wood, in three separate meetings in San Francisco. Also present were Dan L. Carroll, counsel for the Merced Irrigation District, and Joy Warren, Senior Staff Attorney for Modesto. Mayer and Warren discussed ALJ Wong's proposed decision (PD). Mayer and Warren reviewed AB 189, and specifically Public Utilities Code Sections 367 and 368, and concluded that the PD does not comply with the provisions of these statutes. Mayer and Warren stated that no prior Commission decision authorizes or requires the imposition of discriminatory CTC rates on Municipal Departing Load (MDL) customers. Mayer and Warren noted that Section 367(a)(2) prohibits the inclusion in the 2004 CTC rate calculation of any qualifying facility contracts costs to the extent that the contracts expired prior to or during 2004. Mayer and Warren argued that the PD should be modified to remove the ineligible contract costs from the CTC calculation and to update the CTC rates accordingly. Mayer and Warren also commented that Modesto disagrees with the benchmark adopted by the PD.

12/9/04                      R04-04-003                      Order Instituting Rulemaking to promote policy and program coordination and integration in electric utility resource planning.

**Summary:** On December 7, 2004, Devra Bachrach, Staff Scientists at the Natural Resources Defense Council (NRDC), met with David Gamson, advisor to Cmmr. Brown, and Steven Weissman, advisor to Cmmr. Wood, in two separate meetings in San Francisco. Bachrach discussed NRDC's support for the draft decision's (DD) proposed 'greenhouse gas (GHG) adder.' Bachrach requested that the Commission clarify that the 'GHG adder' represents the financial risk associated with carbon emissions, and is not an externality value. Further, Bachrach recommended that the DD require the utilities to use the GHG adder both in procurement and in future long-term plans. Bachrach also noted that many parties are interpreting the renewables provisions of the DD in very different ways and urged the Commission to clarify the DD's intent to fully implement the Renewable Portfolio Standard (RPS). Bachrach stated that RPS solicitations should be the main vehicle to procure renewables. Finally, Bachrach requested that the Commission provide additional guidance in the DD to ensure that future long-term plans are truly comprehensive, integrated long-term plans.
